

Einstein Stations

specifications

Construction:

Left/right support panels(middle support panel on 96" & 120" lengths) and double modesty panels are constructed using 1" particle board with high pressure laminate (HPL) and matching 3mm PVC edge banding. Left/right/middle support panels are finished off with leveling glides.

3mm Tops:

The core material is 1.125" thick particle board with a phenolic backer sheet and high pressure laminate on top making the total top thickness at 1.25". Matching WB Standard 3mm PVC edge banding is applied to all sides.

Optional top surface choices include most Wilsonart matte (-60) finish laminates with possible up charges. Other vendors available upon request.

Assembly: Unassembled

Shipping Class: 70

NMFC#: 83620-2

Einstein Optional Features:

Cable wire management

Gommets

Power options (see catalog for more options)
