

## Assembly Instructions

**Instructions are based on the ELO® Adapt desk but can be used for any ELO or UNE-T desks**

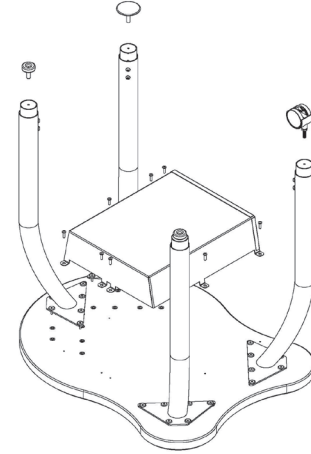

Before you begin, please make sure all parts and proper quantities are included. (See Part Identifier Key page) Any parts damaged during shipment must be reported within 24 hours of receipt. To report information regarding damages or if you have any questions, please call 800.242.2303.

### Step 1:

- Place top face down on a protected flat surface.

### Step 2:

- With legs installed, align tabs of wire basket or book box with the pre-drilled pilot holes.
- NOTE:** Spacers (rubber washers) will be included with your parts and pieces if the wire basket/book box's tabs lap over the leg plate. If they do, you will need to first align the spacers over the pre-drilled pilot holes and then align the tabs of the wire basket/book box with the spacers. You may need to use two spacers per pre-drilled pilot hole if there still a gap between tab and spacer.

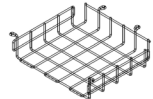

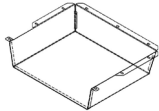

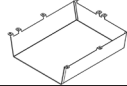

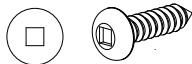

### Step 3:

- Use #10 x 1¼" or #10 x ¾" square pan head screws to fasten each of the tabs of the wire basket or book box to the top. (See Part Identifier Key to see what type of square pan head screws to use.)

#### Tools Required

- Screw gun
- # R2 square bit
