

Medical Treatment Bench

specifications

Base:

Base is constructed of solid maple and maple veneers and will hold up to 500 lbs. The unit is finished with a chemical resistant, earth-friendly UV finish.

The cushion is a 4" thick foam with removable, easy-to-clean black vinyl cover and a built-in elevated headrest.

Legs of base are finished off with non-skid adjustable glides for precise leveling and rubber leg boots.

Standard Features:

Rubber leg boots

Maple base

4" thick black foam cushion

Shipping Class: Density Based Class

NMFC#: 80440

Assembly: Minimal assembly required
